## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

Claim 8 (canceled).

#### DETAILED ACTION

Claims 1, 2 and 9-22 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 3, 4 and 7, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on April 2, 2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### **REASONS FOR ALLOWANCE**

Applicant's amendments, filed 08/31/09 have overcome the rejections made under 35 U.S.C. 112, second paragraph and under 35 U.S.C. 103(a) in the office action mailed 04/30/09.

The following is an examiner's statement of reasons for allowance: The examiner has found claims 1-4, 7 and 9-22 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to a compound of a given formula, an E/Z isomer, E/Z isomer mixture and/or tautomer thereof, or a salt thereof. Also, the invention relates to a method of preparing and using a composition comprising said compound. The compound or composition of the present invention is not taught or suggested in the prior art and is not obvious over the prior art. Also, the method of preparation and use of said composition are not taught or suggested in the prior art and are unobvious over the prior art. For example, the compounds of the present invention are structurally different to the compounds of prior art documents and these differences are not suggested in the prior art, nor are obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
